Secondly, I'm doing a disservice to our sandal-loving friends if I don't tell you about Foot Levelers SANDALHOTICS... If your feet/legs/back hurt in the summer when you wear your summer sandals, but you don't want to give them up ... hear me out! That machine in our waiting room? It's a foot scanner and with it, we can order orthotics customized specifically to your feet. Well, you can also get SANDALS made with your custom-fit orthotics in them. Tammy ordered some before her vacation to Bonaire, and was amazed at how she could wear them all day and be on her feet, and not suffer from back/leg pain! So I had to try them before my trip to Germany...and had the same experience...I wore them for several days in a row with plenty of hiking and walking...and never had any trouble! I felt great!! A couple of our other clients have ordered them this summer and have expressed the same results! ***But here's the best story...***

A good friend of ours that we play softball with had been experiencing such terrible knee pain that she was having to sit out of softball games because she couldn't run. She is a flip-flops-in-the-summer kind of gal.... So Tammy asked her if her troubles began when she started wearing her sandals for the summer....and she realized that that was most likely the culprit. So SHE TOO ordered the same sandals as Tammy and I. Within 2 days of wearing the orthotic sandals, she's been BACK IN THE GAME! She was shocked at how much difference they made in her legs and knees (and we are happy to have her back on the field!!)

Please ask us if custom-fit orthotic sandals might be a good option for your body's needs! I can assist with having your feet scanned at any time, with or without a regular appointment. See the following pages for some of the custom sandal options that are available.

Hope you're having a terrific summer! -Teri ;)
